

SYSTEMIC FAMILY CONSTELLATIONS FOR ORGANISATION CONSTELLATORS

WITH BIBI SCHREUDER

Co-owner and trainer at the
Bert Hellinger Institute (Netherlands).

*"I perceive systemic work
in the same way as
the undeniable power of nature
you can only go with the flow,
never against it"*

JUNE &
SEPTEMBER
2018

Facilitators of organizational constellations often come to the borders of organizational systems. Many patterns and dynamics have their origins in a family system. Sometimes it turns out that an organizational issue is in fact more related to a personal or work-related question.

Especially the systemic approach from the Dutch Hellinger institute will give you a deeper understanding of how systems work, and of how the survival mechanisms create patterns.

KEY TAKE-AWAYS

- > Develop a keen eye for what is happening in the soul of the family system
- > Obtain knowledge about how systems function and about the three survival mechanisms: personal conscience, system conscience and evolutionary force
- > Be able to perceive and act in a phenomenological, systemic and non-judgemental way
- > Be able to apply the systemic principles to responsibly facilitate family constellations
- > Obtain insight into your own patterns

At the end of the training, after working with own cases and with guest clients, participants can start facilitating family constellations, or facilitating personal issues that arrive from their clients during organisation constellations.

**The training takes place in inspiring nature settings
in the heart of Denmark**
